1 pessoa recomendou Manuel

"It was a real pleasure to work with Manuel Barbosa and his team in the production of a web-video for Synopsys Interface IP product line. He is very professional, extremely dedicated, and with very clear ideas on how to reach the goals of the project. He's also a remarkable team player and very flexible, focused on the "get the job done" and bringing added value to the initial briefing, while at the same time being very open to suggestions. He was also available to implement additional versions and several edits to the video, that were asked on top of the initial briefing. We truly appreciated the video end-result and the quality time that we at Synopsys, spent together with Manuel and his team. I strongly recommend him as a high-quality provider for these projects."
