WORK EXPERIENCE

I've been working as a freelance director, cinematographer and editor since 2012. Solo or as a team, I've been producing audiovisual projects for national and international clients. I have also worked as a hired cinematographer, directing assistant or editor for production companies.

● Cinematographer / since 2012

First started by shooting a 'making of' for a car commercial. Since then I've been hired as D.o.P, camera operator or camera assistant in numerous projects, by many production companies and it is my most requested service. I've worked in TV commercials, institutional and documentary films; event coverage and portraits. Some of my best work includes a 4 day portrait for Taça da Liga (Football Cup's final in Portugal); 2nd camera unit in "Journey", a Caetano Bus film ad; and a boxing documentary (to be exhibited),

● Editor / since 2012

Apart from editing 80% of my work as a producer/director, I've worked as a hired editor mainly for institutional and advertising projects. Started my working career editing Toyota and Caetano projects for video producers, and since then I've edited projects for Belron, Guerin and Mimo Music Festival in Amarante, Portugal.

● Producer/Director / since 2013

Started back in 2013 by producing a manufacturing process video for Toyota Portugal, to be presented at Japan, 15 min in length. Such thrill and success, gave me the confidence to start producing a variety of video projects: from institutional and advertising videos for Toyota, Caetano and Indisol; to music videos and event coverage for Luis Represas, Sebastian Yatra and Comic Con, amongst many others. I've also been producing portraits and short films for personal purposes.

EDUCATION

● Graduation in Sound and Image/ 2008 - 2012

Portuguese Catholic University - Graduated at the age of 22 in Sound and Image, specializing in video production and editing.
