INTRODUCTION :

In 2007 I graduated in Cinema / Cinematography in Lisbon, Portugal.

Since then I have had the pleasure to work with many AC's and DoP's in both commercials and feature films throughout Portugal and abroad and I have risen in the industry as a Focus Puller, Camera Operator and DoP.

I am organised and I can easily communicate with and adapt to different people and cultures. I truly embrace every new project as an opportunity to grow and improve my skills.
